shutter® GUARD

The art of security & style, in one innovative product.

SECURITY

10 YEAR WARRANTY

RUST PROOF

OUTDOOR

INDOOR

CUSTOM COLOURS

ShutterGuard® Aluminium Security Shutters are a savvy, stylish, safety solution for windows or doors – offering security without compromising the aesthetics of your home, commercial or retail space.

The patented Gear-lock keeps the shutters in place. A 6cm patented bolt secures the shutters to the floor, leaving no leverage to lift the lock out of the track. A 3.4cm bolt secures the top track when locked. The Cisa system allows you to lock the shutters with a unique security key. Should you wish to have a double-sided lock please request this with us.

CUSTOM COLOURS

Hurricane Aluminium Shutters were originally designed to protect windows and doors from storms and high winds without compromising the aesthetics of a home.

These stylish shutters, made entirely from aluminium, are not only good to look at but are functional, durable, won't rust, are easy to clean and therefore come with a 10 year warranty. As with ShutterGuard®, the folding, louvred shutters will open up a room as well as control light, noise and temperature.

CONTROL LIGHT, NOISE & TEMPERATURE

Thermowood® Shutters are practical and elegant, custom-made, louvre door shutters, manufactured from a durable, specially engineered wood substitute – extruded PVC – that has been thoroughly tested under stringent humid, hot and dry conditions to ensure longevity.

Whether you want to invite light and a sense of space into your home at the ocean's edge or in the middle of the Karoo, or whether you are looking for a room divider or alternative cupboard door in a room influenced by moisture, Thermowood® Shutters will deliver on its' promise of merging indoor and outdoor living – elegantly.
